

CLASS# 26

SILICONE LUBRICANT SPRAY

This is a medium viscosity, light duty spray lubricant. The unique lubricating qualities of silicone reduce friction, protect against rust without gumming up. It contains no fluorinated solvents or chlorine so it's safer for use in the shop.

Silicone provides a light coating that is super slick. It's great for use on cutting tables on saws, sewing needles, knives and cutters. Use it to protect and restore and rubber, plastic and vinyl parts. Also perfect for coating saw blades in the fact it will prevent rust and provide a fine lubricating layer for easier sawing. This comes in an economical 11oz aerosol spray can.

ITEM#	DESCRIPTION
426	SILICONE LUBRICANT SPRAY

CLASS# 26

CARBURETOR AND CHOKE CLEANER

Contains a very powerful combination of concentrated solvents and is specifically formulated to remove dirt, gum and varnish deposits that tend to build up on moving and sealing surfaces of engines. Use on carburetors, heat valves, automatic chokes, throttle bodies, pcv valves and linkages. Helps to free sticky valves, stuck heat risers and throttle linkages.

There is **NO** alcohol, lead or silicone. It will not harm oxygen sensors, catalytic converters or fuel injectors. Periodic use on cars, trucks airplanes, lawnmowers etc. will keep engines clean, fuel-efficient and trouble free.

This cleaner can even be used on running engines. It is formulated for high performance without the use of ozone depleting chlorinated or fluorinated solvents. It comes in an economical 15.5-ounce can. By **POWERLINE** **USA MADE**

428	CARBURETOR & CHOKE CLEANER

CLASS# 26

BRAKE PARTS CLEANER

This is a non chlorinated, brake parts cleaner. It's triple action power removes dirt, dissolves grease and cleans parts. You can use it as a general cleaning solvent on machinery where disassembly is either not practical or necessary such as brake systems, mechanical assemblies, engines and so forth. It makes small cleaning jobs a whole lot easier. It removes brake fluid, grease and oily contaminants.

SPEC BOX

MADE BY AMREP, USA
NON CHLORINATED, OZONE SAFE
BIG 14 OUNCE CAN
1000'S OF USES

ITEM	DESCRIPTION
414	BRAKE AND PARTS CLEANER 14 OUNCE

CLASS # 26

BLASTER

PENETRATING CATALYST

This is a powerful, concentrated penetrant that loosens rusted, warped, and frozen parts. It breaks loose the surface tension of all rust and corrosion quickly by 'creeping' up, around, and into hard to reach cavities.

The lubricating film stays on the part to help prevent further rusting or freezing. This penetrant is formulated without harmful CFC's that can harm the ozone. It also makes an excellent bug and tar remover for auto grills and bumpers and, it can even be used to displace moisture in distributor caps for faster engine starting.

12 Oz. aerosol can. MADE IN USA

ITEM#: 415

OTHER GREAT *BLASTER* PRODUCTS

BLASTER

SMALL ENGINE TUNE-UP

This 12 oz aerosol restores power and compression to all 2 and 4 cycle engines. It removes all carbon, gum, varnish, and moisture to smooth engine performance and prevent failure. It helps prevent vapor lock and stalling as well as freeing the rings and valves from carbon build-up. It conditions gas in extended layoff periods when added to fuel and sprayed in the carburetor.

ITEM#: 416

BLASTER

EXTENDS TOOL LIFE

This new cutting catalyst is used in machine shops and tool and die shops. It instantly delivers results by transferring peak friction heat from the tool and acts as a coolant, as well as a lubricator and rust inhibitor. It dramatically extends the life of the tool when used as a drawing compound additive. Available in a 12 oz. aerosol can and is commonly used for cutting, tapping, boring, stamping and drilling, and threading jobs. Also great for reaming and sawing!

ITEM#: 418

CLASS # 26

PENETRATING OIL 12 Oz.

This is a multi purpose penetrating oil that lubricates, cleans, prevents corrosion, displaces moisture and penetrates faster and farther than the other leading national brands.

It is free of ozone depleters and chlorinated or fluorinated solvents so it meets EPA regulations. In addition this product is fortified with PTFE for superior lubricity. (PTFE is 'Polytetrafluoroethylene', better known by the trade name 'Teflon[®]' and used in anything that needs to be slippery or non-stick).

Use it to free up rusted or frozen bolts, or moving parts. Also contains advanced corrosion inhibitors for maximum protection of metal surfaces.

420	PENETRATING OIL 12 OZ

CLASS# 26 CLEANERS & OILS

GLASS CLEANER W/ AMMONIA-19oz

Made in USA. Ammonia activated foam clings for instant cleaning action. Wipes off easily. Will not run, streak or leave a film. Cleans glass, mirrors, chrome, stainless steel, aluminum, porcelain and ceramic tile. Removes masking tape residue and paint over spray.

ITEM#	DESCRIPTION
GC1	GLASS CLEANER WITH AMMONIA 19oz.

CLASS # 26

14 OZ LITHIUM MULTI GREASE

This is heavy duty, multi purpose #2 Lithium grease. It is American made by LubriMatic® and it's formulated to meet the requirements of a wide range of applications.

It is recommended as a chassis and universal joint lubricant and excellent for packing bearings. This multi-purpose grease is also recommended for all other general purpose applications.

Resists heat, repels water, prevents wear and is a high performance, long lasting and hard working all purpose lubricant.

ITEM#:	DESCRIPTION:
140Z	14 OZ LITHIUM MULTI GREASE

CLASS # 26

GREASE GUN IN A CAN

Grease gun in a can is a remarkable new multi-purpose lubricant. A red grease sprays out of the can in the form of a thin, penetrating liquid and then quickly turns into a thick grease that even clings to vertical surfaces.

This is the original 'Misty Slip Shot II'. It provides excellent lubrication properties, and can withstand temperatures of 500° F and resists throw-off. It is a non-soap grease with an inorganic base that is formulated for maximum lubricity. This formulation also includes additives for anti-rust and oxidation as well as anti-wear.

It lubricates, resists water, prevents corrosion, rust, and is acid resistant. Its extreme pressure and anti-wear properties give it a cushioning effect to resist shock and reduce noise. 12 Oz. aerosol can. USDA Classification H2.

GREASE GUN IN A CAN

CLASS# 26 CUTTING & TAPPING FLUID

Our cutting and tapping fluid is a big 16 oz. Aerosol can that's handy to use and extends the life of all your tooling and even your cutting and grinding wheels.

This aerosol is specially formulated to meet all the needs of a high performance machine shop. This fluid easily sprays on to give you the best protection against heat friction and tool bit wear. Your expensive tooling will last twice as long when you're using this high grade fluid. Quickly dress up your drill bits and taps & dies before use. You'll get better performance and all that expensive hardware will last longer. Even your drill motors will last longer because they'll run smoother and do more work with less trouble. You'll be amazed at how much longer cutting and grinding wheels will last you too!

419	CUTTING & TAPPING FLUID 16 OZ

CLASS # 26

BELT DRESSING

This belt dressing aerosol by Gunk® can dramatically increase the life of your motors and machines with just a few sprays. It helps to protect against premature wear, and provides a better grip which eliminates all slipping and squeaks. 6 oz. Made in USA

ITEM#:	DESCRIPTION:
M206	GUNK BELT DRESSING - 6 OZ

CLASS # 26

RADIATOR SEALANT

GUNK's multi-purpose radiator sealant and conditioner treats the whole cooling system. It will repair all minor leaks in radiators, blocks and cylinder heads. It ensures positive protection against gasket and combustion chamber seepage.

It contains water pump lubricants that stop rust and corrosion instantly and protect against lime formation. It neutralizes acids, is non-foaming, and is safe on all metals and hoses. It mixes safely with standard anti-freeze and Conforms to US government MIL Spec. C-13713-6104293. 5.5 oz. plastic bottle. MADE IN USA

CLASS # 26

THRUST QUICK STARTING FLUID

Thrust[®] quick starting fluid is for getting 'up and running' quickly on any gas or diesel engine. You can use this to 'spark the start' on all autos, buses, trucks, tractors, outboard motors, chain saws, and construction equipment. It is even effective at minus 65°.

Simply spray Thrust[®] starting fluid in the air cleaner or carburetor for two or three seconds and stand clear. Then start up your cold or stubborn engine without any problem. Saves wear and tear on your battery and ignition even in cold weather. 11 oz. Made in USA.

ITEM#:
M38-15
