

# CLASS# 40

## 4 PC. AUTO LOCKING TIE DOWNS

These are the best straps to throw in your trunk or garage for general purpose use. These straps can secure motorcycles, water craft, ATV's, tool boxes, or almost anything that you carry on a pick-up truck bed or recreational trailers.

These straps automatically lock when the load is cinched down and they have an easy thumb release. They're rated at 2,000 lbs. Tensile strength with minimal stretch. They have 8mm steel hooks that are coated to prevent scratching or rusting. The straps are 1 1/2" wide and extend from one foot to six feet. There are four straps in each package.

# CLASS # 40

## RATCHET STRAPS

These heavy duty straps are made out of super strong nylon webbing. They're a full 2" wide and extend from 4' out to 20' or 27', (refer to specs below). The ratcheting mechanism is located near the end of the strap so you simply throw the long end over the load and secure it from the side.

The hooks are drop forged, heat-treated and won't pull out, even under stressed or unbalanced loads and they have a positive locking, quick release lever that won't slip but allows you to loosen the straps immediately when desired. IMPORTED.

**ITEM#: 2RS – Medium Duty Specifications:**

- 2" Wide x 20' Long
- 2,500 Lbs. Load Strength
- Vinyl Coated 'S' Hooks
- Automatic Quick release

**ITEM#: 2RS45 – Heavy Duty Specifications:**

- 2" Wide x 20' Long
- 4,500 Lbs. Load Strength
- 'J' Hooks
- Automatic Quick Release

**ITEM#: 27RS – Super Heavy Duty Specifications:**

- 2" Wide x 27' Long
- 10,000 Lbs. Load Strength
- 'J' Hooks
- Automatic Quick release

**CLASS# 40**  
**LOAD BINDERS**  
**3/8" ratchet load binder**

This is a ratchet type load binder with a positive push lock and a screw with a ratcheting handle in the middle of it. There's a 10" barrel that has a 15" mechanism on both ends of it that holds the chain linked hooks. As you ratchet the handle, it tightens the 1" thick screw bolts on each end of the barrel, and cinches the load down. This heavy duty unit has a working load of 5400 lbs and a take-up range of 8". It weighs 10 lbs

ITEM#	DESCRIPTION
RLB	3/8" RATCHET LOAD BINDER

**3/8" CHAIN LOAD BINDER**

This is a high quality, heat treated steel, chain load binder. These are one piece fork lugs with handle: the conventional chain load binder with the hooks. **Imported**

ITEM#	DESCRIPTION
609	CHAIN LOAD BINDER

## **CLASS# 40**

# **CHAIN COME-A-LONGS**

These are high quality lever hoists that use chain instead of cable. They are rugged, and built to take the abuse of “in the field” usage. The ratchet and pawl mechanism provides positive load control. You get heat treated, steel swivel hooks, 15’ handle, and a five foot lift.

These are economical, portable, and easy to use in tight spots.

<b>ITEM#</b>	<b>DESCRIPTION</b>
<b>LB34</b>	<b>¾ TON CHAIN COME-A-LONG</b>
<b>LB3000</b>	<b>1 ½ TON CHAIN COME-A-LONG</b>
<b>LB6000</b>	<b>3 TON CHAIN COME-A-LONG</b>

## **CLASS # 40**

# **1 TON & 2 TON CHAIN HOISTS**

These are one ton and two ton capacity chain hoists. They have a 10' lift on a triple spur gear with a heavy duty chain, a steel wheel housing, and heat treated sheaves.

The hand wheels, positive ratchet, screw and disc brakes are completely enclosed to keep dirt and grime out of the working mechanism. They feature a safety rated chain that tests out at 150% of the hoists rated capacity.

The 1 Ton is 19 Lbs. and the 2 Ton is 23 Lbs. IMPORTED

<b>312</b>	<b>2 TON INDUSTRIAL CHAIN HOIST</b>

## CLASS#40 POLY ROPE

This is multi-purpose polypropylene rope. We have it from 1/8" to 3/4" in different lengths and in different colors. All of our poly rope is twisted (not braided).

Poly rope is water resistant, with minimal stretch, and has excellent resistance to rot and abrasion.

The 1/8" makes excellent lightweight tie down rope; or can be used as crowd control rope.

The 1/4" yellow rope is most commonly used as fairway rope at golf events, as crowd control rope anywhere, or as pulling rope such as pulling electrical cable and wire through conduit.

The white and green 1/4" rope is most commonly used at golfing events, outdoor path marking, or as tie down rope

ITEM#	DESCRIPTION
622	1/8" X 2500' POLY ROPE
612	1/4" X 1200' YELLOW POLY ROPE
61224	1/4" X 2400' YELLOW POLY
611	1/2" X 600' YELLOW POLY ROPE

624	1/4" X 2400' WHITE/GREEN/ WHITE ROPE

**CLASS# 40**  
**NYLON AND MANILA ROPE**

**TWISTED NYLON ROPE**

This is the twisted white nylon rope that has a golden hue to it. It is a hundred times stronger than poly rope, but has more “give” or elasticity than poly rope.

<b>ITEM#</b>	<b>DESCRIPTION</b>
<b>617</b>	<b>1/4" X 600' TWISTED NYLON ROPE</b>
<b>618</b>	<b>3/8" X 600' TWISTED NYLON ROPE</b>
<b>619</b>	<b>1/2" X 600' TWISTED NYLON ROPE</b>

**MANILA ROPE**

This is grade 1 pacific manila rope. It is imported from the Philippines and used where strength and durability are a must. It is lightly oiled to remain water resistant. It is the most popular general purpose rope used everywhere.

<b>ITEM#</b>	<b>DESCRIPTION</b>
<b>620</b>	<b>3/8" X 600' MANILA ROPE</b>
<b>621</b>	<b>1/2" X 600' MANILA ROPE</b>

## CLASS# 40

# CAL TRUCKER'S POLY ROPE

This is heavy duty polypropylene rope. It's stronger than manila rope and is mandatory in most states for truckers that use rope. It is black with an orange tracer stripe for easy identification.

It will not absorb water, and has excellent resistance to acids, oils, and alkalis, and most solvents.

<u>DIAMETER</u>	<u>TENSILE STRENGTH</u>	<u>WORK LOAD</u>

614	1/2" X 600' CAL TRUCKERS ROPE
615	3/4" X 600' CAL TRUCKERS ROPE

## CLASS# 40 CABLE COME-A-LONGS

These ratchet cable come-a-longs come on a high strength, welded steel frame. All components are heat-treated for durability and against collapse. They have dropped forged safety hooks, and the hand lever is both pinned and welded so they don't bend or collapse. They come with galvanized aircraft cable and a positive thumb control reversing lever.

# **CLASS# 40**

## **MAASDAM COME-A-LONGS**

The Maasdam “Pow’R-Pull” is a well known brand name that’s long been associated with USA made quality and dependability in lifting and pulling devices. They are the originators.

These come-a-longs feature a one piece aluminum alloy ratchet wheel in an all steel, heat-treated and hardened steel frame. All parts are plated against corrosion and rust. They have a galvanized 3/16” aircraft cable that’s virtually indestructible. You get “notch-at-a-time” letdown for positive control during lowering. The hooks are drop forged steel slip hooks that rotate 360 degrees. There’s a non-slip grip on the handle that’s comfortable and reduces hand fatigue. The 1 ton has a 12’ lift: the 2 ton has a 6’ lift.

These are used by contractors, engine repair shops, equipment handling, vehicle recovery, fencing, and by outdoorsmen and hunters everywhere.

<b>M2TON</b>	<b>2 TON MAASDAM COME-A-LONG</b>

## CLASS# 40 ALL STEEL CHAIN

Our heavy duty, all steel transport chain is used by farmers, truckers, movers, and many other industries for material handling, towing, and hauling. These are 20' piece lengths of either 5/16ths or 3/8ths link with clevis hooks on both ends.

the **5/16ths chain** is rated **G70** and is made for hauling and towing. It's heat treated and anodized gold to prevent rusting and corrosion. It weighs 21 lbs. **(not for lifting!!)**

the 3/8ths chain is rated **G40** and has a bright chrome finish. Also used for towing and hauling, it is heavier and also has clevis hooks on both ends. It weighs **29 ½ lbs.**

ITEM#	DESCRIPTION
51620	5/16" X 20' G70 TRANSPORT CHAIN
3820	3/8" X 20' G40 HIGH TEST CHAIN BRIGHT

## CLASS# 40 TOW ROPE

These are heavy duty poly braid for extra strength. They have heavy duty **drop forged hooks** on the end with **safety catches** and plastic guards. You get excellent stretch to absorb shock and ease the load forward. They're **100 % rot resistant** so you can use them in any weather: snow, rain, sleet, mud, etc. They conform to towing regulations in every state and are rated at **6,000 pounds (3 tons)**. They are **14' long** and  $\frac{3}{4}$ " diameter.  
**IMPORTED**

ITEM#	DESCRIPTION
610	14' X $\frac{3}{4}$ " POLY TOW ROPE

# CLASS# 40

## 20' HEAVY DUTY TOW ROPE

These are the big 20 foot long tow ropes. They're made from a heavy poly-propylene braid—1 1/8" thick. These have excellent "give" to them, a real plus when you're pulling a load and have to take up the slack in the line. They are rot resistant, 1 1/8" thick, and they have oversized, forged hooks with safety latches on them. There are plastic guards over the ends, just below the hooks.

These are the big tow ropes. They are twenty foot long and have an 11,500 lb test rating. **Imported**

ITEM#	DESCRIPTION
TR20	20' X 1 1/8" TOW ROPE W/ SAFTY HOOKS

# CLASS # 40

## 4" X 30' CARGO LOOP STRAP

These 4" wide webbed Terylene straps are double reinforced, with twisted ends, and are rated to 40,000 lb. tensile strength. They are a full 30 feet long and 6 mm thick and meant for the trucks with winches welded along the bed.

They feature double reinforced twisted ends with cargo loops, no hooks to damage metal finishes. Terylene is highly resistant to moisture and moisture-caused strength degradation and despite its tremendous strength, this strap weighs only 12 lbs and rolls up very easily for storing. Imported.

**ITEM#:**

**N430CS**

**DESCRIPTION:**

**4" X 30' HEAVY DUTY CARGO STRAP**

## CLASS# 40

# ADJUSTABLE TOW BAR

These bumper mount tow bars are great to have around ...you can hook them up in minutes to almost anything on wheels, and just as easily, ...take the tow bar off for something else or for storage. They come with bumper mounting brackets that have heavy duty pins in them so the tow bar attaches easily and quickly releases (you know, so you don't have the tow bar sticking out if you want to park the load)

These have adjustable arms with that extend from 24" to 41" wide. They have a 2" ball and a 5,000 lb towing capacity. **Imported**

ITEM#	DESCRIPTION
335	ADJUSTABLE TOW BAR
