

CLASS# 70

METAL HANDLE TRAP RAKE

These bunker rakes have sturdy metal handles that have an “abs” coating on them to prevent any type of corrosion or rust. What you get is a super tough, 4 foot handle that “springs” back when it is bowed under use. This rake will never rot out or decompose in any way.

The abs plastic heads are formed with a two inch blade for moving big loads of sand and they have 1 ½” deep round tines across a 16” head.

CLASS # 70

GOLF COURSE BARRIER TAPE

These are control barrier tapes that keep your players out of areas where you don't want them. Course repair is on going and critical and these barrier tapes do the job. They're bright yellow with bold, black lettering that warns players: "no carts allowed" or "ground under repair".

These rolls are 3" wide x 1,000' long bright opaque yellow with an ultra bond, scratch resistant, jet black ink and hold up to water, wind, and all other harsh elements including heat and sunlight.

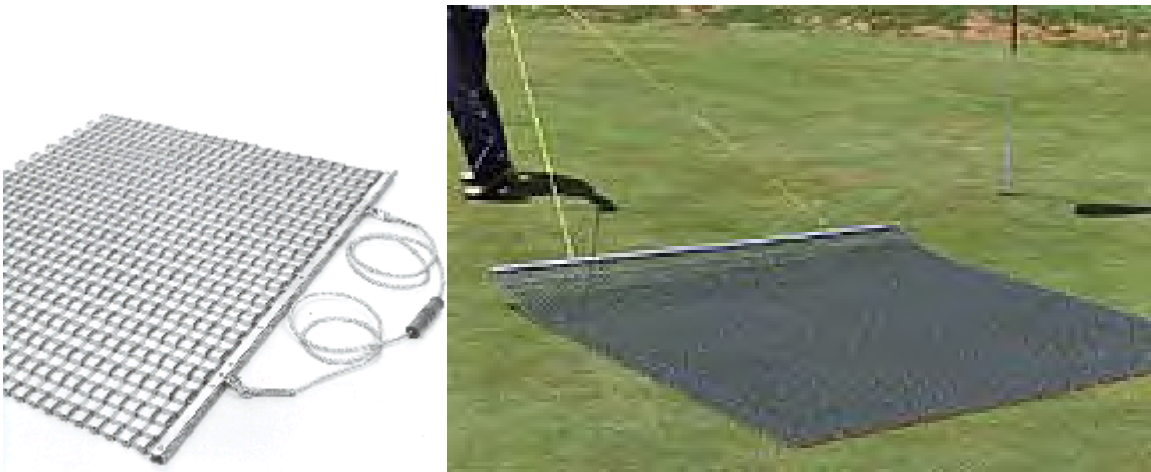

ITEM#:	SIZE:	LEGEND:
3CTGUR	3" x 1,000'	"GROUND UNDER REPAIR"
3CTNCA	3" x 1,000'	"NO CARTS ALLOWED"

CLASS# 70 HEAVY DUTY DRAG MATS

These drag mats are over three times the strength of standard drag mats. They have a rust-resistant, galvanized finish and are “button head” welded on the sides with 6 gauge galvanized steel rods. They are 1” x 1” mesh and weigh 3.5 lbs per square foot.

These are used for breaking up plugs on golf courses (not recommended for greens), dragging track and baseball fields, and for soil preparation for lawn seeding. They are also commonly used on construction sites and factory floors. They come in 3 sizes: 4’ x 5’, 5’ x 6’, and 8’ x 8’.

We also carry these with the drag mat attachments that consist of a steel angle plate attached to the mat with special welded clips that hook to eyebolts along the edge of the mat. **Made in USA.**

ITEM #	DESCRIPTION:
DRAG45	4’ X 5’ DRAG MAT
DRAG56	5’ X 6’ DRAG MAT
DRAG88	8’ X 8’ DRAG MAT
DRAG45WA	4’X 5’ DRAG MAT W/ ATTACHMENT
DRAG56WA	5’ X 6’ DRAG MAT W/ ATTACHMENT
DRAG88WA	8’ X 8’ DRAG MAT W/ ATTACHMENT

CLASS# 70

“EZEE” SAND TRAP RAKE

The “ezee” rake head is polethylene and almost indestructable. The head is 15” wide with 3” teeth that bite into bunker sand—even if it’s wet. Simply flip the rake over and the blade side levels and smoothes the sand regardless of its condition.

The four foot handle is a tough weather, high visibility, yellow enamel wood and is splinter free. You can easily replace it with a quick tab that instantly releases the head when pushed. The rake has a metal spike on the head end so that it will easily stand up on it’s own. **Made in the USA.**

CLASS# 70 REGULATION GOLF CUP

These are regulation USGA golf cups, the standard used by PGA courses and tournaments across the country.

They are 6 ½” high and 4 ½” in diameter and made of high impact abs plastic. They take temperature changes better than most other cups on the market—without cracking or warping. This makes cup replacement or re-positioning much easier.

These regulation putting cups are perfect for any course or practice putting green. **Made in the USA.**

REGULATION PUTTING CUP

CLASS #70 INVERTED FLUORESCENT SPRAY PAINT

This is the inverted tip spray paint used by highway departments, contractors, utility companies, and recreational and maintenance companies. The inverted tip allows you to use the product in an upside down position. Simply point the top down and the marking paint will spray clog free.

They come with the specially designed “convert-a-cap” that does not need to be removed before using; and there’s no worry of accidental spraying. These can also fit in a roller “wand” so that you don’t have to bend over to mark the surface you’re standing on.

Available in yellow, blue and fluorescent orange/red; also available as “golf course marker” in white and red. They are 16 oz and quick drying.

CLASS# 70

DISPOSABLE TEE TOWELS

These disposable tee towels are 14" x 21" spun fiber paper/cloth fabric, folded over, with the brass grommet pressed in. This material is almost rip-proof because it's scrim reinforced. They come in four "hatch pattern" colors, 200 per box: in blue/white, red/white, brown/white, and green/white. They're full-sized, super-absorbent, and long-lasting.

ITEM#	DESCRIPTION:
996	GREEN & WHITE DISP, TEE TOWELS (200 EA,)
997	RED & WHITE DISP. TEE TOWELS (200EA.)
998	BROWN & WHITE DISP. TEE TOWELS (200 EA)
999	BLUE & WHITE DISP. TEE TOWELS (200 EA.)

CLASS# 70

“ULTRA” PGA FIBERGLASS RAKE

The ultra rake head is not blow molded like the cheap rakes on the market—it is injection molded to give a much stronger tines and a thicker blade head. It is color impregnated all the way through so the color won't fade. The head is 15" across and ¾" thick to prevent warping or breaking. The opposite side of the rake can be used to eliminate deep foot marks. The head has a reinforced “wing” where it is braced to the handle.

This rake comes with a 5' dark green fiberglass handle that is “veil” coated to reduce color fading. It has a reinforced plastic core to prevent “bowing” and it is finished with a black plastic end cap.

ITEM#	DESCRIPTION:
778PAFG	ULTRA RAKE W/ FIBERGLASS HANDLE

CLASS# 70

VIPER VENOM GOLF BALL WASH

“Viper venom” quickly puts the bite on dirty and stained golf balls. This special blend is easy on the environment, but tough on grease, grime, and grass stains. This blend will not decompose over a long period of time to gum up the washers. It’s bio-degradable, environmentally safe, and actually prevents scale build-up.
