

CLASS # 50 REPLACEMENT BULBS

QUARTZ HALOGEN BULBS

Multiple supports along the entire filament assures a continuously high output, precision beam control, and protection from shock and vibration.

They fit most brands and types of Halogen lamps or floodlights and are available in 300 or 500 watt.

ITEM#:	DESCRIPTION:
300Q	300 WATT QUARTZ HALOGEN BULB
500Q	500 WATT QUARTZ HALOGEN BULB

FLUORESCENT BULBS

These replace the fluorescent bulbs in Item # 117. They measure 17-3/4" from pin end to pin end and are dual bulb, double pin type with the frosted inside glass.

ITEM#:	DESCRIPTION:
117BULB	REPLACEMENT FLUORESCENTBULB

BAYCO® BULBS

These are replacement bulbs for all the Bayco® brand drop lights as well as many of the other types.

They are a 13watt, fluorescent twin bulb, 7" in length.

ITEM#:	DESCRIPTION:
SL103	BAYCO REPLACEMENT BULB

CLASS # 50 SPECIALTY LIGHT BULBS

TOUGH SKIN LIGHT BULBS

Tough skin, or 'tough kote' light bulbs are shatter resistant because of the rubber coating on the outside.

These are 75 watt bulbs, and the best available for protection against shattering. Great for use in all trouble lights outdoors or indoors in shops or garages or any high vibration areas.

Priced individually. Import.

ITEM#: 792

These 50 watt, long life light bulbs are for 12 volt systems, such as RV's and boats.

They feature the frosted inside and filament thickness and supports for a 'long life' rating.

Priced individually. Import.

ITEM#: 796

12 VOLT / 50 WATT BULBS

150 WATT FLOODLIGHT

These high quality floodlights are sealed against moisture for use inside or outside usage even in bad weather conditions.

The unique shape provides greater perimeter coverage and they are 150 watts, making them super bright.

Priced individually. Import.

ITEM#: FL150

CLASS # 50

ROUGH SERVICE LIGHT BULBS

They're called 'rough service' because they will take the abuse of being thrown around in trouble lights and machine tools. These are also 'long life' bulbs. Where most bulbs that carry a 'rough service' designation last 1,100 hours of burn time, these bulbs are guaranteed to last 3,000 hours and most will last up to 10,000 hours.

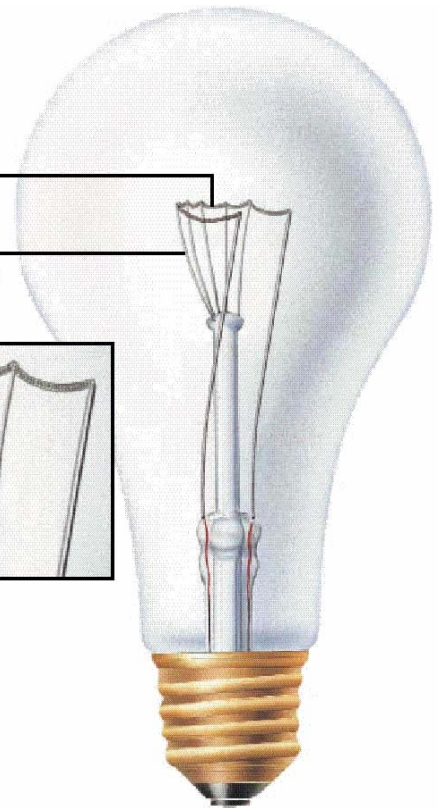

These bulbs have triple thick filaments and instead of a filament support on each side, these have six filament supports. The outside is frosted with a medium A-19 base, and they're a standard 120 volt. These bulbs will outlast regular bulbs ten to one!! Ordinary rough service bulbs can cost up to \$3.00 and 'long life' bulbs can cost the same. These bulbs are the best combination of both. Must be sold in lots of 4 and there are 120 per case. IMPORTED

Built Stronger To Last longer

Stronger, single coil filament increases lamp life.

Extra filament supports add durability to resist bumps and jars and extend life.

CLASS # 50

ENERGY SAVING CFL LIGHT BULBS

ECObulb[®] Plus from Feit Electric is not your average compact fluorescent light bulb (CFL). As the first widely available low mercury CFL in the U.S., ECObulb[®] Plus not only uses 75% less energy than a standard incandescent bulb, but it lasts up to 13 times longer and contains lower amounts of toxic and hazardous materials thus protecting you and the environment.
