

CLASS # 21

PINS AND LOADS

These are heavy duty, low velocity fasteners, also called ‘pins’. They are special nails used in Powder Actuated Guns. They are propelled by ‘Loads’ also called ‘Shot’ which, simply put, works like a bullet in a gun. The firing pin strikes the gun powder filled load which then propels the ‘Pin’ through the gun.

Pins and Loads, or ‘Nail and Shot’, are used for fastening hard materials where manual hammering would just not work. Used for fastening wood to concrete or wood to steel or steel to concrete etc. All the pins are Zinc plated and have the standard .300 head. They will fit almost all nail guns.

The pins are available in various lengths and with or without an attached washer. The loads are available in .22 or .27 caliber and in different ‘power’ levels. Gray being the lightest power, then Brown for light power, Green for heavy power, and Red for heavy power in a .27 Caliber.

WITHOUT WASHER

PINS

WITH 3/4” WASHER

ITEM#:	SIZE:	DESCRIPTION:	QTY:
P101	3/4”	LOW VELOCITY PINS - NO WASHER	100
P102	1”	LOW VELOCITY PINS - NO WASHER	100
P103	1 1/2”	LOW VELOCITY PINS - NO WASHER	100
P105	2”	LOW VELOCITY PINS - NO WASHER	100
P106	2 1/2”	LOW VELOCITY PINS - NO WASHER	100
P104	3”	LOW VELOCITY PINS - NO WASHER	100
P150	3/4”	LOW VELOCITY PINS - WITH WASHER	100
P151	1”	LOW VELOCITY PINS - WITH WASHER	100
P152	1 1/2”	LOW VELOCITY PINS - WITH WASHER	100
P153	2”	LOW VELOCITY PINS - WITH WASHER	100
P154	2 1/2”	LOW VELOCITY PINS - WITH WASHER	100
P155	3”	LOW VELOCITY PINS - WITH WASHER	100

The loads are manufactured by Winchester, (the firearms company), for Masterset. They are available in .22 caliber single shot 'crimped' and come in three power levels, or in the .27 caliber crimped strip loads, (10 loads per strip), in four power levels.

The single shot loads are packed 100 per box and the strip loads are 10 loads per strip, 10 strips per box for a total of 100 loads.

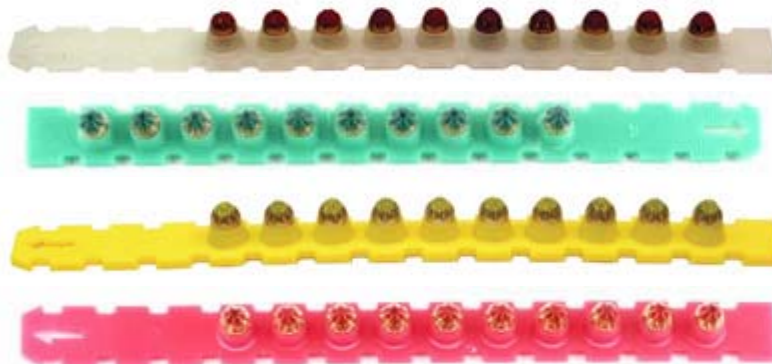

CRIMPED LOADS

LOADS

ITEM#:	CAL.	COLOR:	DESCRIPTION:	QTY:	PRICE:
S102	.22	BROWN	CRIMPED LOADS	100	11.90

S275	.27	RED	CRIMPED LOADS - STRIP	10 x 10	15.90

10 SHOT STRIP LOADS

CLASS # 21

POWDER ACTUATED GUNS

These are the Masterset brand powder actuated guns. The unique thing about the Masterset system is that the guns are of the component type, which means faster turn around when servicing and trading up is less expensive.

The firing pin mechanism is interchangeable with either gun, which is an exclusive feature of Masterset. Both guns take .300 head fasteners and the .27 caliber will accept the 8mm Hilti fasteners. Both guns have a tough, but lightweight, Zytel handle which is almost indestructible yet absorbs recoil, and reduces operator fatigue.

System 1 is a .27 caliber, single shot gun that will handle four different powder levels, brown through red and System 2 is a .22 caliber single shot that will handle four different powder levels, gray through yellow.

Both kits come in a heavy duty metal tool box with handle, lift out tray and include ear plugs, safety goggles, hex wrenches, cleaning solvent, spall suppressors, cleaning brushes, and a wire cleaning brush. USA MADE
