CLASS # 46

24" MULTI SURFACE PUSH BROOM WITH BRACE

This is a stiff bristle and wire push broom made for sweeping dirt and other fine particles on sidewalks, parking lots, and other rough surfaces. The broom head is 24" wide and the tubular steel handle is 48" long with an 18" EVA grip, ('EVA', Ethylene Vinyl Acetate, is a polymer material, which is shock absorbing and very soft and flexible).

The broom handle and the broom head are braced together for strength and durability, and the head is water and petroleum resistant. There is also a wall hang loop on the end of the handle for storing out of the way. This push broom will get the job done without wearing you out. IMPORTED.

ITEM#:

948

24" MULTI SURFACE PUSH BROOM

CALL TOLL FREE: 1-(800) 223-3129

CLASS # 46

24" & 18" PUSH BROOMS

These are top quality, genuine, American made *Quickie* push brooms. They feature an all steel 60" handle and the broom head comes with a *five year warranty*. Each broom has a tight grip fitting that locks the broom handle into place.

We carry two styles of *Quickie* brooms: The 'SoftSweep', which has the fine-tipped, Tampico fibers used for wood floors, linoleum, tile, marble and smooth cement. The 'RoughSweep', with stiffer, Palmyra fibers, is great on asphalt, rough concrete, gravel, dirt, and heavy debris.

QUICKIE 'ROUGHSWEEP'

ITEM#: 536R or 520

QUICKIE 'SOFTSWEEP'

ITEM#: 533S or 523Q

ITEM#: DESCRIPTION:

520	18" QUICKIE ROUGH SWEEP PUSHBROOM
523Q	18" QUICKIE SOFT SWEEP PUSHBROOM

CLASS # 46

UPRIGHT BROOMS

These are genuine, American made Quickie brooms. The 100% poly-fiber broom with split-tip ends makes clean up easy and thorough. It is especially handy for the kitchen or entryway, and it now has a curved-edge, streamlined broom head design. The split-tip ends will sweep up the smallest dust and dirt particles and the fibers are angle cut to get into corners and hard-to-reach places. The 48" steel handle length comes with a great swivel hang-up feature for off-the-floor storage.

Then we carry the 100% highest quality hurl corn broom. Wire wound with galvanized metal, this oversized broom head is excellent for large area cleaning. It has five rows of stitching for reinforced sturdiness and is ideal for garage, patio, decks and general outdoor clean up. The 40" steel handle length comes with a great swivel hang up feature for easy storage.

LEAF & SHRUB RAKES

POLY LEAF RAKE

These are general purpose, year 'round leaf and lawn rakes that have 48" long, hardwood handles.

They feature 22 tough polypropylene tines on a heavy duty 22" head that is ribbed so it won't bend and become deformed over time.

ITEM#: 531

GREENSWEEPER SHRUB RAKE

- Hardwood, 48" handle
- Polypropylene tines
- 8" wide head
- Used in planters, shrub boxes and other tight areas

ITEM#: 532

PRO LEAF RAKES

Our best leaf rake for the professional landscaper. They feature 48" hardwood handles with or without a cushioned grip.

The reinforced heads are 26 tines wide and made of tough yet flexible metal and will not bow, rust, or twist. USA made.

Wood handle
ITEM#: PRORAKE

Wood handle with cushioned grip
ITEM#: PRORAKEC

CLASS # 46

LEAF & SHRUB RAKES

22 TINE LEAF RAKES

Metal head leaf rakes, with 22 flat metal tines. The heads are spring braced for long life and durability and have 48" hardwood handles.

Ideal for wet leaves, cut grass, twigs and thatching. USA Made

ITEM#: 542

HEAVY DUTY COMMERCIAL RAKE

- Commercial grade
- 20" wide 22 tines
- 11 gauge, round metal tines
- Double bolted metal head
- 48" hardwood handle
- USA Made

Heavy gauge, stiff tines for moving large piles of debris. Flip it over and it works like a pitch fork for picking up debris or spreading mulch.

Perfect for forestry departments, farms, stables, landscapers, roofers, and greens keepers.

ITEM#: 541

CLASS # 46 LANDSCAPE RAKES

14" BOW RAKE

14" wide with 14 tines, these all steel rake heads are made for heavy use with many different landscaper materials and mulch.

They have a 48" wooden handle riveted securely into the extra long steel ferrule. Imported.

ITEM#: 543

ALUMINUM LUTE RAKE

36" wide with 36 tines, these are aluminum 'asphalt lutes' also called 'road rakes' and used for raking hot asphalt, rocks, pebbles etc.

They have a scraper blade on the opposite side of the tines and a 72" aluminum handle that is braced on each side of the rake head. Import.

ITEM#: 70091

ALUMINUM LANDSCAPE RAKE

36" wide, 36 tines, and have 'V' shaped, blunt teeth on one side and a 1-1/2" blade on the opposite side for pulling or pushing material.

Heavy gauge aluminum heads on a 6' handle and come with either an aluminum handle (**ITEM#: 533**) or fiberglass handle (**ITEM#: 533F**).

CLASS # 46 'D' HANDLED SHOVELS

Perfect for close quarter situations and extremely easy to maneuver, these short shovels have 29" handles with a comfortable 'D' handle for firmer, and easier grip.

The blades are drop forged, tempered steel and measure 9-1/4" wide, 12" long and are double reinforced onto the handles to resist breakage, wobbling and loosening up over long periods of use.

Available with hardwood or reinforced fiberglass handles. Imported.

8 OZ. WELDER'S CHIPPING HAMMER

The spring handled chipping hammer has been a staple in every welding shop for years. Approximately 10-1/2" long with a 5" wide head. The head has a vertical chisel on one end and a long, tapered point on the other. The two different hammer heads are the welder's best tools for clearing off slag and flux from metal.

These chipping hammers are a full 8 Oz. and they have the classic spring handle that fits comfortably in the hand and greatly reduces shock with each blow. The steel is heat treated and hardened to last for many years. Import.

ITEM#:

DESCRIPTION:

705

8 OZ WELDER'S CHIPPING HAMMER

CLASS # 46

TELESCOPING POLE PRUNER

These heavy duty, telescoping tree pruners have a 12” curved saw blade at the end for big limbs and a spring loaded cutting blade for the smaller limbs. The cutting blade has a guide that hooks over the limb and when you pull the attached rope, the razor sharp blade cuts cleanly and quickly through it.

For higher branches or hard to reach places, the pole handle extends to 10’ and twist locks to stay firmly in place. The all metal construction assures the user many years of reliable use.

ITEM#:

DESCRIPTION:

712

TELESCOPING POLE TREE PRUNER

CLASS # 46

LANDSCAPE SHEARS

8" PRUNING SHEARS

These are heavy duty, professional bypass type hand pruners. The steel blades are made from high carbon steel that has been heat treated and honed, giving it a razor sharp edge.

They have curved, ergonomic handles to reduce user fatigue as well as positive lever locks. Imported

ITEM#: 23-186

25" LOPPING SHEARS

These are tough lopping shears used by professionals. They feature heat treated, chromed, 25" tubular steel handles with cushioned grips.

The 6", curved jaw blades will quickly slice through limbs and shrubbery.

ITEM#: LOPP

HEDGE SHEARS

These hedge clippers have 20", padded metal handles and feature 9" long super sharp, steel blades with a 'wave' design.

They're professional, landscaper grade 'hedge clippers' that are made to handle the use and abuse expected from popular gardening tools.

ITEM#: 519

CLASS # 46

24" ROLLING MAGNETIC SWEEPER

The Magnetic Sweeper is just the right tool around machine shops and construction sites. This is a fast and efficient way to remove dangerous small objects, remove metal shavings, or find small parts. It will instantly retrieve metal objects and hold onto them until you pull up the 'release handle' to de-magnetize the rake. It makes construction site cleanup extremely easy.

These are perfect for nails, nuts and bolts, even lost car keys in the tall grass. They are effective over concrete, asphalt, dirt, grass, carpeting, or any other surface. Run this sweeper over your parking lot to spare your tires.

They are 24" or 36" wide, with a handle that can be adjusted from 30" to 45" high. The magnetic casing is 4" high and the unit has a clearance of 1 1/2". It has big 7" wheels and will pick up objects to 30lbs. Imported.
