

## CLASS # 24

# TIRE INFLATOR WITH GAUGE

These tire inflating tools are for professional and home use with all direct air lines and any type of tube air filler. They have standard 1/4" female NPT fittings for your 1/4" and 3/8" air hoses.

The attached pressure gauge measures from 10 to 220 lbs. of pressure in 2 lb increments and it has a weatherproof heavy plastic body with an easy to read dial. Built in air release mechanism allows for optimal pressure control.

It has a chrome plated steel dual chuck with an extension cap that fits all rim cover holes; and a 12" flexible hose. **IMPORTED.**

ITEM#:

30TIG2

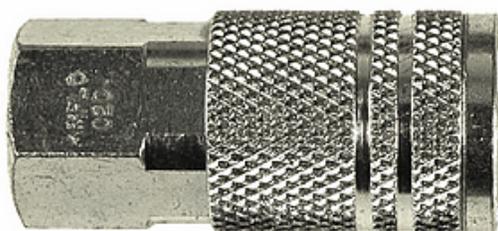

DESCRIPTION:

AIR TIRE INFLATOR WITH GAUGE

## CLASS # 24

# **Amflo.** QUICK COUPLERS

These are the Amflo quick release, top quality US made couplers. They have the standard 1/4" NPT threads and will fit all 3/8" air hoses and 3/8" air tools. The most typical application is the C20, female coupler, and the male plug, CP21. AMERICAN MADE

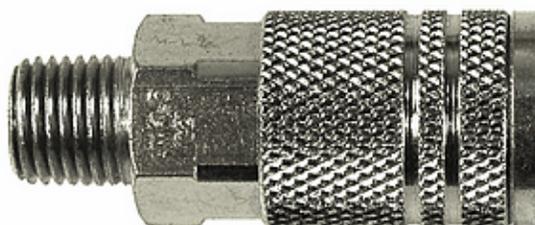

**C20 - FEMALE COUPLER**

**CP21 - MALE PLUG**

## CLASS # 24

# 5 PC. AIR BLOW GUN KIT

This is a 5 piece air blow gun kit that features the air gun itself and four interchangeable tips to reach into various tight spaces. The air gun is a metal construction and chrome plated to prevent rust. It has a rubber tip, a standard 1/4" NPT air inlet and a cushioned thumb grip for comfort.

Included are 4 interchangeable lances; a 4" extension tip, a 3" extension tip, a 2" extension tip and a 3/4" ventless tip which provides concentrated air stream.

These are for use in garages, service stations, and factories. Hooks up to any standard air hose and are used for a variety of cleaning purposes such as fuel lines, sawdust etc.

**ITEM#:**

**413KIT**

**DESCRIPTION:**

**5 PC. 1/4" AIR BLOW GUN KIT**

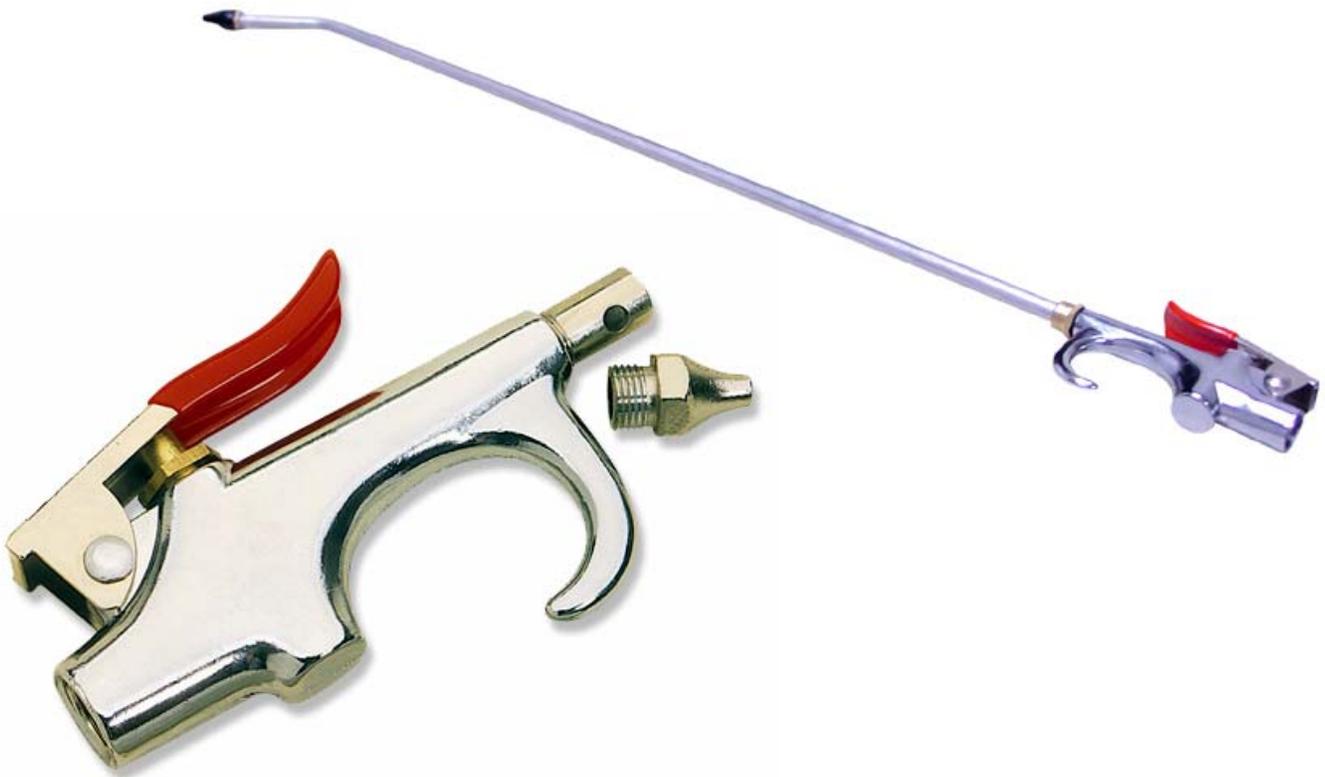

## **CLASS # 24**

# **1/4" AIR BLOW GUN**

All metal construction, chrome plated to prevent rust with a cushioned thumb grip for comfort. Has the standard 1/4" NPT air inlet and comes with two interchangeable nozzles; one for spraying and one for stream.

These are for use in garages, service stations, and factories. Hooks up to any standard air hose and used for a variety of cleaning purposes such as fuel lines, sawdust etc.

This air gun is also available with a 24" long wand for real hard to get to areas and it includes a removable rubber tip. This is a real handy item and a great add on. Import.

<b>413</b>	<b>1/4" AIR BLOW GUN</b>
<b>930</b>	<b>24" LONG 1/4" AIR BLOW GUN</b>

## CLASS # 24 AIR HOSE WHIPS

These are American made air hose whips. They attach to the end of an air tool, which is then attached to a much longer length of air hose allowing easy rotation and maneuvering of the tool without twisting the air line.

They also eliminate the need for a coupler and plug, which could create air pressure loss. These whips are a 3/8" ID and available in either 36" or 6' lengths and complete with brass fittings on each end. Goodyear engineered product.

ITEM#:	DESCRIPTION:
WHIP	3' RUBBER AIR HOSE WHIP
WHIP6	6' RUBBER AIR HOSE WHIP

# CLASS # 24

## AIR CONTROL UNIT

This is a complete air control unit for all compressed air systems. The unit is complete with an air filter that filters out all of the flying particles and impurities from your air system, such as dirt, rust, water vapors or oil. All of which can damage your air tools.

This unit also comes complete with an air regulator and a lubricator. It regulates the air pressure from 0 to 150 PSI and it lubricates your air tools as you use them. Comes assembled and ready to install. Imported.

ITEM#:	DESCRIPTION:
NAM	AIR CONTROL UNIT

## CLASS # 24 BLUE COIL AIR HOSE

These blue Polyurethane, coil air hoses are high tensile, low deformation rated air lines that really take the abuse of a fast paced, production shop.

They are weatherproof to minus 40° with a working pressure of 100 PSI and a maximum working pressure of 250 PSI. The brass ends have the vinyl guards so the stress at the connection point is minimal and they'll hold up to constant pressure and give you years of use. Imported.

ITEM#:	DESCRIPTION:
381	1/4" x 25' BLUE COIL AIR HOSE – 1/4" FIT
382	1/4" x 50' BLUE COIL AIR HOSE – 1/4" FIT
RH3825B	3/8" x 25' BLUE COIL AIR HOSE – 3/8" FIT
RH3850B	3/8" x 50' BLUE COIL AIR HOSE – 3/8" FIT

## **CLASS # 24**

# **1/4" RED AIR HOSE**

This is American made red rubber air hose engineered by Goodyear®. It is rated at 250 PSI bursting strength and features two ply of tough nylon braid reinforcing and two ply Goodyear rubber. The rubber jacket is resistant to oils and chemicals and there are 1/4" brass male fittings on the ends.

This 1/4" hose is sufficient to run your 1/4" and 3/8" drive air tools as well as air sanders, hammers, saws etc. It is not recommended for 1/2" air tools as the smaller hose does not permit the volume of air needed.

1/4" hose is also preferred by roofers as it allows the right pressure for nail guns and, because it is lighter in weight it is ideal when dragging across a roof.

<b>ITEM#:</b>	<b>SIZE:</b>	<b>DESCRIPTION:</b>
<b>395</b>	<b>1/4" x 25'</b>	<b>RED RUBBER AIR HOSE</b>
<b>396</b>	<b>1/4" x 50'</b>	<b>RED RUBBER AIR HOSE</b>

# CLASS # 24

## RED RUBBER AIR HOSE

This is red rubber air hose engineered by Goodyear®. It is 300 PSI air hose that can withstand the greatest of abuse in shops and garages. These hoses are 3/8" ID and feature a 2 ply inside reinforcing and a 2 ply Goodyear rubber jacket.

Unlike other air hoses, this tough red rubber air hose will not get pin holes associated with welding splatter. It is oil resistant and each end has the appropriate male brass fittings, (see chart below for fitting size).

This hose is also available with 1/2" ID in 25' and 50' lengths and has a 450 lb working pressure and a 600 lb. burst pressure. 1/2" hose is available with 3/8" or 1/2" NPT fittings. A Goodyear engineered product.

## CLASS # 24

# ORANGE PLIOVIC AIR HOSE

This is orange safety air hose engineered by Goodyear®. It features a 300 PSI working pressure and a 1200 PSI bursting pressure. The pliovic construction makes it much lighter than traditional rubber air hose however the downside is that it does get a little stiff in cold weather so it should be used indoors in the shop as opposed to outside in the cold.

These hoses are gas and oil resistant, and have the standard 1/4" male fittings on each end. USA Made and available with or without the protective vinyl guard on one end. A Goodyear engineered product.

ITEM#:	SIZE:	DESCRIPTION:
390	3/8" x 35'	ORANGE PLIOVIC AIR HOSE

**HYPER FLEX**

## CLASS # 24 ACE HYPER FLEX AIR HOSE

New, Goodyear® engineered Hyper Flex air hose is made exclusively for Ace Industrial Supply. This air hose features durability and dependable power in a very lightweight and flexible design. The jacket is a matte blue thermoplastic elastomer reinforced with polyester fiber for ultra flexibility.

This is an all weather air hose with excellent cold weather performance. It has a temperature rating of -40°F to 158°F (-40°C to 70°C). It requires up to 20% less force to bend than industry leading Flexilla® hose, and up to 50% less than any comparable PVC and rubber air hose. Working pressure is 300 PSI.

This hose is up to 45% lighter in weight than comparable PVC and rubber air hose and testing shows that Hyper Flex air hose matches industry leading levels of durability performance while also providing a non marking surface. They have threaded brass fittings and the 3/8" hoses have a protective vinyl guard on one end. USA made.

## CLASS # 24

# VINYL GUARD AIR HOSES

These are the same top quality air hoses that we have always carried, but with the added feature of a 4" vinyl sleeve that covers one end of the hose.

This vinyl guard gives the hose a bend restriction at the point where the coupling and the hose take the most abuse, preventing twisting, bending and kinking and the eventual destruction of the entire air line.

The 4" vinyl guard also gives the hose high visibility and helps to protect against scratching in automotive applications. These hoses are Goodyear® engineered products.

## CLASS # 24

# 3/8" x 50' AIR HOSE REEL

These reels come fully loaded with a 50' rubber air hose. They have the four direction, non-snap hose rollers with the adjustable stop that you can set to any length you want to hang out or down.

To reduce wear, the hose attaches to the reel with a heavy duty, swivel joint and spring guard and the hose itself is non-conductive to eliminate any possibility of combustion.

The reel can be mounted on the ceiling, the floor, or wall, or even to the bottom of a truck, because the guide arm is fully adjustable. A fully enclosed spring mechanism operates quickly with a gentle tug on the hose line.

They're made from a heavy gauge, non-flexing, rolled steel and have a 1/4" thick steel base plate and are long life, maintenance free hose reels that will make life easier in your shop or garage for years.

### Specifications:

- 3/8" x 50' Rubber air hose
- 250 PSI
- Air Inlet / Outlet: 3/8"
- 1/4" NPT Fittings
- 19-1/2" Diameter
- 10-1/4" Wide
- 20-3/4" High

3/8" x 50' AIR HOSE REEL W/ HOSE

## **CLASS # 24**

# **1/2" x 50' AIR HOSE REEL**

These 1/2" air hose reels by Astro Pneumatic are made for heavy use in bus terminals, fleet garages, and now for anyone needing 1/2" air hoses that they want up and out of the way.

The reels come fully loaded with 50' of heavy duty, red rubber air hose and have the four way non-snap hose rollers, adjustable stop, non-slip spring guards, and reinforced joints. They can be mounted securely on the floor, the wall, or the ceiling for long-life, maintenance free use. They're constructed of heavy, non-flexing, rolled steel and have a 1/4" thick steel base plate.

The air hose is 1/2" I.D., 50' long, 250 PSI and equipped with standard 3/8" fittings for big air tools. The measurements of the entire unit are 19 1/2" diameter, 10 1/4" wide, and 20 3/4" high from base plate to hose stop. Fully assembled, just unpack and mount. **IMPORTED.**

**1/2" x 50' RETRACTABLE AIR HOSE REEL**

## CLASS # 24

# 3/8" AUTOMATIC HOSE REEL

Quality makes a big difference in hose reels, and Coxreels® has been making state of the art reels for over 60 years. These reels have 4-direction, non-snag hose rollers to reduce wear and full flow swivel joints where the hose attaches to the reel.

Coxreels® have a heavy duty 1" solid steel axle, not a hollow core, like most reels. The sides of the housing are heavy, ribbed steel discs that have fully rolled edges for maximum protection.

These reels are versatile too. They can be used with either air or water hose. They have a heavy duty 1/4" steel plate base and support post and the guide arm easily adjusts to ceiling, floor, wall, and even bottom wind truck mounting. The balanced spring motor is fully enclosed and packed in grease, for long life. USA MADE

ITEM#:	DESCRIPTION:
CR50	3/8" HOSE REEL ONLY (NO HOSE)

(NOTE: THESE REELS DO NOT COME WITH HOSE!)

# CLASS # 24

## 3/8" x 25' RETRACTABLE AIR HOSE REEL

This is a heavy duty, 3/8" I.D. 25' air hose reel with a spring powered, automatic rewind feature, and an all steel housing designed for industrial or commercial use.

It has an extra large reel diameter to prevent walk-up hose binding, and 4-way roller guides and a guide arm that adjusts for any mounting position, including floor, pit and ceiling mounting.

### Specifications:

# CLASS # 24

## JACK HAMMER HOSE

This is American made, 3/4" red rubber jackhammer hose. It features a 300 PSI working pressure and 1200 PSI bursting pressure and is oil, gas and grease resistant.

The outside rubber jacket is heavy duty, and resists crushing, cracking, abrasion and weather. They are fitted with the 'Dixon or Air King' type 3/4" universal twist lock connectors that are steel banded on the ends.

This hose is industrial quality to handle tough applications and used by municipalities, contractors and road construction. A Goodyear engineered product.

ITEM#:	DESCRIPTION:
403	3/4" x 50' JACKHAMMER HOSE

# CLASS # 24 WATER HOSE

## RUBBER WATER HOSE

This is an all rubber, American made water hose. It is specially made for hot water use to 160° yet it can maintain flexibility in sub zero temperatures. It resists abrasion and it is very durable under any conditions and is ideal for any commercial or industrial use.

The hose comes with solid brass 5/8" octagon fittings, and has a working pressure of 200 PSI. OSHA approved.

<b>ITEM#:</b>	<b>DESCRIPTION:</b>
<b>409</b>	<b>3/4" x 25' BLACK RUBBER WATER HOSE</b>
<b>404</b>	<b>3/4" x 50' BLACK RUBBER WATER HOSE</b>
<b>411</b>	<b>3/4" x 100' BLACK RUBBER WATER HOSE</b>

## PVC WATER HOSE

This is a heavy duty, blue PVC water hose rated at 1,000 PSI bursting pressure. This hose is very tough and wont crack or break like the cheap hoses do.

It is extremely flexible and resists oil, and abrasions. This will not leave marks like the rubber hoses will and it is OSHA approved.

<b>ITEM#:</b>	<b>DESCRIPTION:</b>
<b>WHB50</b>	<b>3/4" x 50' BLUE PVC WATER HOSE</b>
<b>WHB100</b>	<b>3/4" x 100' BLUE PVC WATER HOSE</b>

# CLASS # 24

## GREEN WATER HOSE

This is heavy duty green Pliovic water hose engineered by Goodyear®. The unique thing about this hose is that it won't crack or break, plus it's completely resistant to oil, chemicals, and is also abrasion resistant.

The machined brass fittings are 3/4" NPT on the 3/4" hose and 1" NPT on the 1" hoses and will fit standard water spigots. They are rated at 300 PSI working strength.

These hoses are ideal for use by landscapers, contractors, golf courses, maintenance shops and any other business that needs a large volume water hose. OSHA Approved. A Goodyear engineered product.

**RWH50**

**5/8" x 50' RED RUBBER-VINYL WATER HOSE**

## **CLASS # 24**

# **5 PC. BRASS QUICK COUPLER SET**

These are quick-connect couplers for all 3/8" air hose with the standard 1/4" fittings. After securing these ends to your air line, simply pull back the sleeve and push in the plug hose end provided.

No need to ever thread air lines together, just attach any of these quick connectors and 'pop on' air tools or another length of air hose. This 5 piece brass plated coupler set includes 1 female coupler, 1 female connector and 3 male connectors. Imported.

<b>ITEM#:</b>	<b>DESCRIPTION:</b>
<b>932</b>	<b>5 PC. BRASS QUICK COUPLER SET</b>

## **CLASS # 24**

# **1/2" x 50' AIR HOSE REEL**

Here's a big air hose reel for the big power tools! This is a 1/2" I.D. 50' long air hose on a heavy duty, retractable reel. The all steel constructed reel has a four-roller, adjustable rewind stop for convenient positioning of the hose, an anti-snag hose guide, and can be mounted on the floor, wall or ceiling.

Because 1/2" air hose is a very bulky and a very heavy hose to work with, the beauty of this unit is that it will prevent the hose from looping on the floor, snagging on other shop equipment and even prevent someone from tripping and injuring themselves over a loose hose.

Included is a non-conductive, 300 PSI, 1/2" x 50' air hose with 3/8" fittings for the big air wrenches, air hammers etc. The whole unit with the air hose weighs 55 Lbs and it measures approximately 20" in diameter, 10 1/4" wide and 20 3/4" high from mounting base to hose stop. IMPORTED

<b>ITEM#:</b>	<b>DESCRIPTION:</b>

## **CLASS # 24**

# **ARMOR TECH AIR HOSE**

A new technological breakthrough in air hose engineered by Goodyear®. The new Armor Tech hose is twice as strong yet lighter in weight than any other hose on the market.

It features a 300 PSI working pressure and a 1200 PSI bursting pressure. It has the standard 1/4" NPT fittings on each end and they are triple crimped beneath the protective jacket. On the working end of the hose is a heavy duty vinyl guard for even more protection when attached to pneumatic tools.

Armor Tech is shielded for abrasion resistance against any surface that gets in its way! This is a petroleum based product and with oil prices going through the roof, the new technology of this air hose has allowed us to offer the best hose on the market yet still manage to keep the cost down. This is a Goodyear engineered product.

## CLASS # 24 CLEAR WATER HOSE

This clear water hose is fully cross-braided for strength and flexibility and the outer clear cover is a blend of vinyl polymers over the braiding.

This is ideal hose for golf courses and it is super abrasion resistant. You can pull this hose over concrete and asphalt without the worry of scratching away the covering. You can also leave this hose in the sun all day and it will not cloud over. The ends are steel banded for extreme pressure resistance. USA made.

## CLASS # 24

# 1/2" BLUE AIR HOSE

These air hoses are engineered by Goodyear® and have a 1/2" inside diameter. They come with either 3/8" or 1/2" fittings. They are available in various lengths for almost any application.

You can use cheaper air hose, but when you work with big machinery and use high torque, pneumatic tools, why worry about bubbles, pin holes, and blown fittings? This blue air hose is bright, heavy duty, and made to last. USA made. A Goodyear engineered product.

## CLASS # 24

# 'IRONFLEX' BRAIDED POLY AIR HOSE

This air hose is lighter and more flexible than bulky rubber air hoses of the same length and diameter. It is extra tough to resist oil and abrasion and is super light weight, making it great for elevated air hose applications.

This hose will coil effortlessly and has a working pressure of 200 PSI, and a burst pressure of 700 PSI. Not recommended for cold weather areas in 0° or lower. Imported.

ITEM#:	SIZE:	DESCRIPTION:
N3850IF	3/8" x 50'	IRONFLEX POLY AIR HOSE
N38100IF	3/8" x 100'	IRONFLEX POLY AIR HOSE
N1450IF	1/4" x 50'	IRONFLEX POLY AIR HOSE
N14100IF	1/4" x 100'	IRONFLEX POLY AIR HOSE

## CLASS # 24

# NEIKO 1/4" x 50' WELDING HOSE REEL

If you have air hose reels, you know how great it is to have your hoses up off the floor; they stay cleaner and you will need fewer replacements, so you save a lot of money and hassles.

These welding hose reels work the same. You can mount them on a wall, the ceiling, or on any mobile structure and your problems with welding hose punctures, splits, and pin holes are greatly reduced.

These are a 50' capacity, with the same retrieval rate as air hose reels and they come with all the necessary mounting hardware and connectors.

ITEM#:	DESCRIPTION:
N100	NEIKO 1/4" x 50' WELDING HOSE REEL

## CLASS # 24

# 1/2" x 50 FT. RECOIL GARDEN HOSE

If you've ever run over, stepped on, or got caught up in a garden hose then you'll really appreciate these recoil garden hoses. They are 1/2" in diameter, and 50' long when stretched out. They have solid brass fittings and include a 6 function spray gun nozzle.

These are the perfect answer to unruly garden hoses on the side or back of the shop, on the patio, at the shop sink, or just conveniently tucked away on your house water bib. Springs back to original size after use for easy storage.

ITEM#:	DESCRIPTION:
379	50' RECOIL WATERHOSE W/ NOZZLE

## CLASS # 24 RUBBER AIR HOSE

These heavy duty air hoses are engineered by Goodyear®. They are industrial grade for use in shops as well as garages. These hoses feature two ply tough nylon reinforcing and two ply rubber and are oil resistant.

They are 3/8” ID, (inside diameter), and have the 1/4” brass male fittings on both ends. These hoses have a working pressure of 150 PSI, (pounds per square inch), with a maximum rating of 300 PSI. Goodyear engineered products.

(With Vinyl Guard)
