

## CLASS # 34 PVC YELLOW RAINSUITS

The PVC waterproof material on these 2 piece rain suits is fused with a cloth backing that gives them strength and keeps the PVC material off your skin. Plus, they have a loose, mesh lining that provides space and keeps you cool. All seams are triple rolled and thermo-sealed.

They feature full cut 'bib type' overalls and they're cut extra in the seat so they don't ride up to your knees when bending over. They have adjustable straps, adjustable waist, and they have take-in closures at the ankles.

The jackets have full hoods with built in drawstrings and the zipper on the jacket is heavy duty and covered by a snapped flap. The arms are rotated 18° so that when you reach out, the cuffs won't ride up your arm. Imported.

## CLASS # 34

# 3 PIECE GREEN PVC RAIN SUITS

These rain suits are made of a durable PVC that is bonded to a polyester mesh backing for incredible strength. They're 100% waterproof yet are fully ventilated with a cape back and fabric lining so you'll stay cool.

The jacket has a storm fly, double snapped front with a detachable hood and drawstring and the snaps are made of Duracron, so the entire suit is non conductive. The sleeves have been rotated 20° so they don't ride up to your elbows.

The pants are the bib type overalls with fully adjustable suspenders and adjustable sides and are extra cut in the seat so the cuffs won't 'ride' up the legs. These are suits meant for hard work in foul weather and are available in a drab olive green. Imported.

## **CLASS # 34**

# **GREEN ELASTIC WAIST RAIN SUIT**

These olive green rain suits have an elasticized waist and are cut to fit nicely over clothing. They slip on and off quickly so they are great to have around in case of light showers.

They also feature elasticized wrists inside regular cuffs and they have adjustable snaps at the leg closures. The hood is attached, and it even has a built in visor.

The jacket has a heavy duty zipper with a storm flap over it and the suit is made of breathable, PVC with a full lining sewn in. Imported.

## **CLASS # 34**

# **DISPOSABLE RAIN SUITS**

These light duty disposable rain suits are identical to the heavy duty rain suits in appearance, they are even made from the same PVC material but are lighter in weight and not made for heavy use.

The jacket features a detachable hood with snaps and the pants have an elastic waist band for a more secure fit. Both the pants and jacket are a high visibility yellow and 100% waterproof, and even though they are considered 'disposable', they can be worn many times before throwing away. Imported

<b>9020XXXL</b>	<b>DISPOSABLE YELLOW RAIN SUIT</b>	<b>XXX-LARGE</b>

## **CLASS # 34**

# **RUBBER RAIN SUITS**

These rain suits are made for extremely bad weather conditions. They're heavy duty rubber bonded to textile sheeting. All seams are rolled, then double stitched, and taped for extra water repellency.

The parka type top has heavy duty, big zippers that you can handle with gloves on. They also have a storm flap with a Velcro closure over the zipper and the roomy hood has adjustable drawstrings.

The cuffs on the jacket and the ankles of the pants have adjustable snap-closers to take up slack in the material. The jacket also features two large pockets and the back and underarms are fully ventilated.

The wide suspenders on the bib style overalls have elastic in the back and metal fasteners. And because these are work suits, they're cut a little extra in the seat so they don't ride up on you or bind you anywhere.

<b>ITEM#:</b>	<b>DESCRIPTION:</b>	<b>SIZE:</b>

## CLASS # 34

# 48" LONG ORANGE RAIN COATS

These high visibility, orange rain coats are 48" in length and feature the storm fly front with Duracon snaps, detachable hood with drawstrings and two flap pockets.

They are constructed of a heavy duty PVC and have underarm vents and a cape ventilated back.

These coats provide rain protection to just below the knees and the bright orange color makes them perfect for working in areas where high visibility is required for safety purposes.

<b>ITEM#:</b>	<b>DESCRIPTION:</b>	<b>SIZE:</b>
<b>OLRC560</b>	<b>48" LONG ORANGE RAINCOAT</b>	<b>SMALL</b>
<b>OLRC561</b>	<b>48" LONG ORANGE RAINCOAT</b>	<b>MEDIUM</b>

<b>OLRC564</b>	<b>48" LONG ORANGE RAINCOAT</b>	<b>XX-LARGE</b>
<b>OLRC565</b>	<b>48" LONG ORANGE RAINCOAT</b>	<b>XXX-LARGE</b>

## CLASS # 34 48" LONG RAIN COATS

These heavy duty raincoats are 48" long and hang past the knees for full protection when you don't want to climb into a two piece rain suit.

Perfect for those fast stops, short trips, quick estimates, these rain coats give you all the protection you need; They feature detachable hoods, non-conductive snaps, and have two large flapped pockets.

They are fully ventilated to keep heat build-up out, but retain some warmth and they even have a badge holder for security work.

These jackets are very popular with law enforcement, fire officials, contractors and park or forest rangers, as well as highway patrol or any one working outside.

## **CLASS # 34**

# **RAIN JACKETS**

These are the same rain jackets that are in our two piece yellow rain suits. They are cut so that they fall below the hip, but not as long as our orange or yellow raincoats, which fall past the knees.

They have built in hoods with the drawstrings, and the full length zippers are covered by a Velcro storm fly. These are work jackets, which means that when you reach out and do some work, the arms don't ride up your elbows.

They are PVC jackets with a mesh lining to keep you cool and have snap closures on the wrists to cinch them down in foul weather.

## CLASS #34

# CLASS III RAIN JACKETS AND PANTS

These rain jackets and rain pants are lightweight and waterproof and are ANSI class 3 compliant for safety. The jackets have a waterproof outer shell constructed of 300-denier, polyurethane-coated, fluorescent polyester oxford. They have a two-tone design for a clean, stylish look and include level 2, ANSI certified, 2" silver reflective stripes.

They feature waterproof, taped seams, polyester mesh lining, full length storm flap with heavy duty zipper and snaps, elastic cuffs, removable hood that tucks into the collar, and 3 pockets with Velcro® flaps. Meets ANSI 107-2004, EN 471 Class 3 standards.

The pants are made with ANSI certified 2" reflective stripes, an elastic waist with drawstrings, adjustable ankle straps and two side slits for inner pocket access. Jackets and pants have Dupont Teflon® fabric protector.

## HI-VIZ 48" RAINCOAT

These are the same rain coats used by highway workers and are visible from hundreds of yards away. They feature large silver, reflective stripes on the back, the cuffs and the storm flap.

They are 100% waterproof with electronically sealed seams, and cut so that you can work in them without getting all bound up. They have a 35mm thick jacket of vinyl over polyester, and cut with raglan sleeves and a storm flap front. Also large side entry pockets, fully vented backs, non conductive snaps and buckles, and a detachable hood with a drawstring and snaps.

- 48" in length
- Vinyl on polyester
- Storm flap front
- Snap on hood
- Take-up snaps on sleeves
- Ventilated back
- Underarm vents
- 2 side entry pockets with slash through access
- 2" reflective tape across back, around cuffs, and vertical on storm flap
- High visibility lime green

## HI-VIZ LIME GREEN RAINSUIT

These are the same rain suits you see on highway workers from hundreds of yards away. They feature the large, silver, reflective stripes on very bright lime green material.

They are 100% waterproof with electronically sealed seams, and they're cut so that you can work in them without getting bound up. The jacket is cut with raglan sleeves and a storm flap front with two large side entry pockets and a vented back. The hood is completely detachable.

The trousers are bib type with a fly and are cut a little extra in the seat so when you bend over, your pant legs won't ride up to your knees. These suits have non-conductive snaps and buckles, and the large 2 inch wide reflective silver stripes; two on each sleeve and pant leg, and one large reflective stripe down the middle of the front and across the back shoulders. IMPORTED

## HEATED HI-VIS JACKETS

These innovative cordless heated jackets are great for outdoor use on the jobsite, roadside construction, hiking, camping, hunting, fishing, and various other outside activities.

They are multi-layered soft shell jackets that are heated with the same M12 Red Lithium battery used to power Milwaukee M12 power tools. The battery sits in a pocket on the back and the temperature is adjusted by an easy touch controller on the chest of the jacket.

These jackets are wind and water resistant and have two hand pockets and a chest pocket as well as a hood with drawstring. They provide 6 hours of warmth on a single charge and distribute heat to 3 body zones. Includes (1) M12 battery and (1) M12 quick charger. Hand wash recommended (with battery removed).

Specifications:

- 3M Scotchlite™ Reflective Material
- ANSI/ISEA 107-2010 Class III Compliant
- 300-Denier, 100% Polyester Outer Shell
- Water & Wind Resistant
- Concealed Heat Controller
- Hidden Inside Pocket

**3M Scotchlite™**

### **BOSCH 12 VOLT HEATED JACKETS**

These innovative cordless heated jackets are great for outdoor use on the jobsite, sports events, hiking, camping hunting fishing, concerts and various other outside activities.

These soft shell jackets are heated with a 12 volt rechargeable Lithium-Ion battery for up to 6 hours of heated runtime on low. They have three quick warming zones: two chest zones and one back zone and will heat up in just minutes.

They are wind and water resistant and adjustable for maximum comfort, fit and warmth. There are five large convenient pockets: two hand pockets, one cell phone chest pocket, one large document pocket, and one battery holster/controller storage pocket. Power electronic devices with the USB battery backup power access on the battery.
