CLASS # 39

16 PC. PRECISION SCREWDRIVER SET

This 16 piece set includes small precision drivers, also called 'jewelers' screwdrivers. They are used for tiny, intricate fasteners found in items like circuit boards, computers, electronics, jewelry and glasses.

They have knurled handles for easy grip and come in a plastic storage box that snaps closed.

Includes:

- Slotted: 1, 1.4, 2, 2.4, 3 & 3.5mm
- Phillips: #0-2, #0, #1-2, & #1-1
- Nutdriver: 3, 4, & 5mm
- Hex: 1.5, 2 & 2.5mm
- Plastic Storage Box

CLASS # 39

SPECIALTY SCREWDRIVERS

6 PC. PRECISION SCREWDRIVER SET

This small screwdriver set features 6 of the most popular sizes often referred to as ‘jewelers’ screwdrivers since they can handle the tiny screws in items like eyeglasses, small appliances, etc.

Also used in gunsmithing and a very handy set for electricians, they feature the black, tempered steel blades with a chromed, steel rotating shaft.

This set features 4 slotted drivers in sizes 1.4mm, 2.0mm, 2.4mm and 3mm and 2 Phillips drivers; #0 and #1. Case included. Import.

26” & 36” JUMBO SCREWDRIVERS

These super long drivers measure 26” and 36” and are used for hard to reach places.

They feature sturdy, ABS plastic handles with heat treated go through square shafts and a metal cap at the end for hammering on.

Made for two-fisted use to allow for more torque. Import

ITEM#:	DESCRIPTION:
639	26” LONG JUMBO SCREWDRIVER
N091	36” LONG JUMBO SCREWDRIVER

CLASS # 39

FLEX SHAFT SCREWDRIVER

This handy screwdriver features a locking, flexible shaft for driving screws, nuts and bolts in tight places and around corners. It is 12" long when closed and extends to 18". The handle features two unique compartments that hold 5 sockets and 6 bits and the covers are transparent so you can easily see the contents. Simply turn caps clockwise or counter-clockwise to remove the bit.

On the main shaft of the screwdriver is another bit holder equipped with 2 flat, 5 Philips, and a square drive bit, so almost every size bit you would need is readily available right on the tool itself. The bit holder is magnetic so all bits stay firmly in place, and there is even a cup hook driver on the butt of the handle for tightening and loosening hooks. Import.

CLASS # 39

8 PC. 'GO-THROUGH' SCREWDRIVERS

Known as 'go-through' screwdrivers because the shafts go all the way through the ABS plastic handles and are capped with a round metal head on top of the screwdriver. This makes them so tough that you can beat on them with a hammer, or use as a pry bar without shattering the screwdriver.

This is an 8 piece set with square shanks and the tips are magnetized to retrieve screws or any small metal objects and work great for holding screws in place as you guide them to your target.

Set includes 4 Philips Head and 4 Flat head drivers with the heavy duty bright red, crystal ABS plastic handles and CrV blades. IMPORTED.

Set Includes:

4 Philips Head;

- 1/4" x 6" - #2
- 1/4" x 5" - #2
- 1/4" x 4" - #2
- 3/16" x 3" - #1

4 Flat Head;

- 5/16" x 8"
- 1/4" x 5"
- 1/4" x 4"
- 3/16" x 3"

CLASS # 39

8 PC. PRO SCREWDRIVER SET

These professional grade screwdrivers feature heat treated tips for added strength that have also been magnetized to hold screws easily in place. They also feature hardened, chrome vanadium shafts and oversized handles which provide greater gripping power.

At the base of the handles are hex bolsters which allow a wrench to be applied for greater torque on over tightened screws. The handles are a bright red for easy identification and have a hanger hole for storage on a hook or a peg board. Imported.

5 Slotted Sizes:

- 1/4" x 1-1/2"
- 3/16" x 3"
- 1/4" x 4"
- 5/16" x 6"
- 3/8" x 8"

3 Phillips Sizes:

- #2 x 1-1/2"
- #1 x 3"
- #2 x 4"
